

Gordon Food Service

Orange County, FL

This 15,600 square foot store is the first entry into the Central FL market for a very successful food distributor from up north. The team led by a highly qualified architectural company retained our services to lead them through the web of approvals notoriously known as "permitting in Florida" by those new to the area. The team was guided from concept to construction, delivering a high quality product on time while having several project expansions

along the way. Services included entitlement through Orange County (Site Plan, Storm Water, Sanitary), OUC (water) the SJRWMD (Storm Water), FDOT (Driveway, Drainage, Utilities) & FDEP (Water & Sewer).
